The RAINBOW 2000[©] PROJECT.

(Incorporating Albany Anzac 2014-18[©] Re-enactment and Albany Bicentennial 2026-27[©])

Neil Smithson for O'Connor MHR 2010

Good morning and welcome – I am your Independent Candidate for O'Connor.

There is a chart on my wall at work called Anzac planner, and it is there to remind me that in this world :

There are two types of **planner** :

1. Those that will say what can be done, and
2. Those that will say “you can't do that”.

There are two types of **consultant** :

3. Those that will tell you what they think you want to hear, and
4. Those that will tell you what they think you need to know.

Everything I say today is available from the **website**.

If elected, these are the things I will support :

1. State Government of **Manypeaks** (Commonwealth of Australia)
2. State Government of **Recherche Goldfields** (Commonwealth of Australia)
3. **Population** growth and regional development throughout Australia
4. Uranium Mining & **Nuclear Power**
5. Port Corporations / **Seaport relocation** for Albany and Esperance
6. **Gas pipeline** from Bunbury via Albany to Esperance
7. **Railway lines** linking Newdegate, Lake King, Ravensthorpe & Esperance (400km)
8. **Railway line** linking Leonora, Wiluna & Newman (800km)

9. Anzac 2014-18 celebrations - **Albany Anzac** Re-enactment 2014 (\$100m)
10. **LNG Highways** - Albany, South Coast, Great Eastern, Goldfields, Esperance
11. **Bremer Basin** oil & gas exploration and **biofuels** research / production
12. **Desalination** for water supply - salinity management
13. **Carbon pricing** for CPRS emissions & renewable power generation
14. Private health insurance & regional **private hospitals**
15. **Empowerment**, self-determination & private enterprise.

If elected, these are the things I would not support :

1. **Minerals Resource Rent Tax** (or the former RSPT) – it is not in regional Australia's interest to support this new tax
2. More government from or by Canberra & Perth – it is **spurious** to suggest that either Perth or Canberra can do a better job locally than the people in our communities
3. Australian Constitutional Monarchists – I am sixth generation Australian and support the monarchy and Australia's heritage, but it is time we as a nation moved on to represent ourselves to the World as one society in freedom.

I noted with interest after the first so-called **leaders' debate** that the phrase '**Peak Oil**' did not feature once in the entire discussion.

There is a lot of information available from the website to justify my assessment of priorities, but by and large the most immediate major concern would be the emerging impact of Peak Oil.

This is reflected in my commitment to :

1. Uranium mining & nuclear power
2. Expanding the gas pipeline network
3. Extending and upgrading the railway network
4. Planning for LNG highways
5. Encouraging Bremer Basin oil & gas exploration

6. Desalination for water supply
7. Carbon pricing and renewable energy.

Most importantly, it is a pragmatic expression of how we as a community can address local and global **climate change** and the need to alter our energy management strategy – without nuclear power, a global solution is virtually unachievable. (McMahon & Davis, Murdoch University).

While a lot of O'Connor people are concerned about the Government's proposed Mineral Tax (**MRRT**), in my opinion there are valid grounds to oppose the legislation in both the Australian Constitution and Parliament (Section 51 ii).

The main concern with the MRRT would be if the **Greens** hold the balance of power in either the House and / or the Senate.

This effectively would mean that Australians change the basis of taxation in this country, without constitutional referendum, so as to supplement ongoing **federal budget deficits** where the government can't make ends meet now.

I think it takes courage to place your family in a boat, and head out across the seas in pursuit of a new and better life. The **refugee** migration issue is consuming too much political time, money and opportunity for us all, and I would handle the problem differently to make the process work for Australia's interests.

There is no doubt in my mind that regional Australia can support **population** growth, whether that is a function of birth rate or **migration**.

People are looking for government to say what can be done – clear concise guidance based on good **planning** that removes both red and green tape to instil confidence and encourage investment.

Private enterprise is the foundation of our society – and my strategy is unashamedly pro-business & commonsense.

The alternative is government intervention – which can only take place as a function of taxation. Most people believe that **Royalties for Regions** has been a boon, and I agree – so try to imagine the return on investment to a State Government of Manypeaks and Recherche Goldfields.

It's a political question – is Albany capable of thinking and acting like a capital city for a new **State of Australia** – the legislation certainly permits it, but is there the community will to progress.

For Kalgoorlie, Esperance and the **Goldfields**, there are potentially huge financial resources available to spread their wings and grow. Indeed, the strategy I have outlined will open up the entire south coast and eastern inland areas for development.

It really boils down to whether you think Perth acts in the best interest of the regions. And now **Canberra** wants its share as well.

Albany **Anzac** 2014-18 should be self-explanatory – Australia's #1 cultural heritage event deserves to be celebrated in style and with reflection. And then follows the **Bicentennial** celebrations for Albany.

It was the Coalition that established and oversaw the **Agribusiness** MIS taxation scheme. It was Federal Labor that has subsequently established **Infrastructure Australia**, Regional Development Australia and now the National Anzac Centenary Commission.

No-one spends \$40 million dollars over 4 years on a failed planning & environmental assessment process. **Grange** is going to want a solution for its iron ore project, and Albany wants the employment & investment.

If the State Minister for Transport gives Grange access to the ring road and Princess Royal Drive, that will limit future expansion capacity – **Main Roads** and the **Australian Rail Group** have said as much, so let's not push the onus onto private landowners who have different aspirations.

If the Minister doesn't give Grange access, and the **Waterfront** projects proceed as they will eventually – well I am particularly interested in each O'Connor candidates' solution for this problem.

I have been studying this for twelve years, and **port relocation** is the only solution – and several people have already said exactly that.

Your vote is very important, and this election is about choosing a future for ourselves. That starts now with your choice for **O'Connor** in the House of Representatives, and the Western Australian senate team.

Thank you for your attention this morning. I would **appreciate** your support, and promise you that I will do my best for O'Connor.

Neil R. Smithson

**How to vote : O'Connor
House of Representatives
Green Ballot Paper**

| | | |
|----------|-----------------------|--------------|
| 8 | Huntley, Andy | (Greens) |
| 9 | Robinson, Jean | (CEC) |
| 2 | Tuckey, Wilson | (Liberal) |
| 5 | Scallan, Pat | (FFP) |
| 7 | Young, Jacky | (CDP) |
| 4 | Crook, Tony | (National) |
| 6 | Stokes, Geoffrey | (ESJAP) |
| 3 | Bishop, Ian | (Labor) |
| 1 | Smithson, Neil | (Ind) |

I will finalise my preferences after the August
CCI forums in Albany (6th) & Kalgoorlie (13th).

**How to vote : WA Senate
Large White Ballot Paper**

1 Liberal (above the line)

The RAINBOW 2000[©] PROJECT .

(Incorporating Albany Anzac 2014-18[©] Re-enactment and Albany Bicentennial 2026-27[©])

- a Regional Planning Strategy for Albany and the Great Southern.

The Rainbow 2000[©] Project is a doctoral research & corporate investment program analysing the relationship between planning and politics in Economic Development in Australia, and more particularly a case study of Albany & the Great Southern Region of Western Australia – thesis : Is planning the antithesis of politics?

The following is a proposed model for regional governance evolution embracing Federal, State, Regional and Local transitional arrangements for a period of four years from proclamation (open elections thereafter).

BEFORE (Western Australia)

Federal Member for O'Connor (Tuckey)
Senators for Western Australia (12)

3 Members of Legislative Assembly
Member for Albany (Watson)
Member for Blackwood-Stirling (Redman)
Member for Wagin (Waldron)

3 Members of Legislative Council
Member for South-west (McSweeney)
Member for South-west (Holt)
Member for Agricultural (Benson)

Great Southern Development Commission
Chairman GSDC (Rundle)

Southern Aboriginal Corporation
Noongar Elder (Penny)

14 LGAs of the Great Southern
Mayor, City of Albany
Deputy Mayor, City of Albany
President, Shire of Denmark
President, Shire of Plantagenet
President, Shire of Cranbrook
President, Shire of Kojonup
President, Shire of Broomehill / Tambellup
President, Shire of Gnowangerup
President, Shire of Jerramungup
President, Shire of Woodanilling
President, Shire of Katanning
President, Shire of Kent
President, Shire of Wagin
President, Shire of Dumbleyung
President, Shire of Lake Grace

AFTER (Manypeaks)

Federal Member for Manypeaks (Smithson)
Senator for Manypeaks (1)

3 Members of Legislative Council
Member for Albany
Member for Stirling
Member for Piesse

3 Members of Legislative Council
Member for Great Southern
Member for Great Southern
Member for Great Southern

1 Member of Legislative Council
Member for Great Southern

1 Member of Legislative Council
Member for Noongars

15 Members of Legislative Assembly
Member for Frederickstown
Member for Vancouver
Member for Denmark
Member for Plantagenet
Member for Cranbrook
Member for Kojonup
Member for Broomehill Tambellup
Member for Gnowangerup
Member for Jerramungup
Member for Woodanilling
Member for Katanning
Member for Kent
Member for Wagin
Member for Dumbleyung
Member for Lake Grace

BEFORE (Western Australia)

AFTER (Recherche Goldfields)

A similar model for regional governance evolution would be worked up in consultation with stakeholders for Recherche Goldfields (with Kalgoorlie as the State capital), again embracing Federal, State, Regional and Local transitional arrangements for a period of four years from proclamation (open elections thereafter).
